

**Dr. Leonidas Ocola***Physicist*

Theme: Nanofabrication &amp; Devices

Phone: 630-252-6613

Fax: 630-252-5739

E-mail: ocola@anl.gov

Argonne National Laboratory  
Center for Nanoscale Materials  
9700 S Cass Ave., Building 440  
Argonne, IL 60439-4806

Ph.D., Physics, University of Wisconsin-Madison

**Research Summary:**

Research interests include novel nanofabrication techniques, micro- and nanofluidics, plasmonic optical devices, transparent capacitors, templated self assembly, nano-electrical mechanical systems (NEMS), electron-matter interactions, single molecule spectroscopy. Experimental expertise is in the areas of nanofabrication using electrons, ions, and photons, scanning probe microscopies and other materials characterization techniques, modeling and simulation.
